

Quick Start Guide To:

Purchasing Leads

This Quick Start Guide will walk you through the steps of Purchasing with the Swiftpage Lead Builder.

There are two ways to Purchase Leads using the Swiftpage Lead Builder.

- Buy Lead Credits – Purchase leads in bulk ahead of time (prepay method) to have available for download at any time. Purchasing in bulk reduces your price per lead. This step is complete before you run the search query of your desired leads.
- Purchase Leads – After you have searched for your Lead Builder Filters, you will be brought to the step of purchasing the Leads selected. This step is completed after you run the query.

1. Select the Leads button from the Swiftpage Connect portal.
